

**You are invited to attend**

**The Launch  
of  
Superfast  
BROADBAND  
in the village of  
Tollesbury**

**Wed 9<sup>th</sup> July 7.30pm  
Tollesbury Parish Rooms**

**How do we do it?**

The traditional method of delivering broadband to your home is via your existing phone lines. This process has limitations, not least the old phone lines themselves which limit the broadband speeds available to each house. At County Broadband we use **aerials** to deliver our superfast broadband around your village and

into your home, and we deliver up to 32Mb speeds for both upload and download. We have been doing this for over 11 years now, and we deliver a superfast, and reliable broadband service

**Our superfast broadband service is available in the village of Tollesbury - TODAY!**

You are no longer limited by the slow speeds dictated by old copper cables, nor do you get reduced speeds the further away you are from BT's little green exchange box.

You tell us what speed you would like (up to 32Mbps) and we will deliver it to your home or office via our aerial network!

We have a **zero subscription** tariff, together with six other tariffs ranging from our cheapest at £9.99 per month through to £34.99 per month for our top domestic tariff. We also offer a full business service too, so whatever your needs we can find something to suit you.

Please come to our launch evening, tell us what you need, and let's all get better connected!

**Please come and see how superfast broadband can change your life!**

- **Experience our 32Mb upload and download speeds for yourself**
- **Come and try an internet phone -you could say goodbye to BT's fixed line**

**charges forever!**

- **See how superfast broadband can turn your TV into a SMART TV**
- **If you don't want to wait, just give us a call and we can book you in now!**

**Come and see for yourself at the launch of**

**Superfast Broadband in Tollesbury**

**Wednesday 9th July 2014**

**Tollesbury Parish Rooms**
